TheEngineers GmbH
LET'S MAKE THINGS BETTER

BUSINESS ENGINEERING

- Process Analysis, Documentation and Optimising of Processes
- Harmonising of workflows and interfaces
- Increased efficiency
- Decreased costs
- Improved quality
- Identifying and evaluate of new business fields, products and competitors
- Creation of foundations for data based decisions
- Maximizing your business success

TheEngineers GmbH
LET'S MAKE THINGS BETTER

BUSINESS ENGINEERING

- Seamless integration of strategies, processes, organisations and technologies
- Application of engineering methods
 - > Lean Six Sigma
 - > Lean Healthcare
 - > REFA
 - > DataScience

TheEngineers GmbH
LET'S MAKE THINGS BETTER

SCIENTIFIC CONSULTING

- Toxicological evaluation of chemicals
- Hazard assessment and regulatory classification according to GHS
- Exposure and risk analysis
- Planning and implementation of test strategies
- Support in the registration of chemicals
- In the Regions
 - EU (REACH)
 - China
 - Korea
 - Türkiye

SCIENTIFIC CONSULTING

- Evaluation of food contact materials and non-intentionally added substances
- Calculation of tolerable concentrations and migration limits
- Evaluation of cosmetics ingredients and calculation of the tolerable dose
- Support with
 - Correspondence with authorities in the regulatory area
 - Compliance with legal requirements for chemicals
 - Analysis, evaluation and preparation of your data (Completeness)
 - Assessments and calculations for regulatory requirements (Compliance)
 - Interaction and communication with national and international authorities

TheEngineers GmbH
LET'S MAKE THINGS BETTER

PROJECTMANAGEMENT

- Taking over overall project management
 - Business & Industrial Engineering
 - Infrastructure optimisation projects
 - Data preparation and analysis projects
- > Plan milestones, tasks and resources
- > Budget planning and monitoring
- > Project meetings and success progress monitoring
